

Momentary Contact Block for Emergency Stops, with failure switch-off *) AZSOI

Description:

*) 1 NC, 1 NO and 1 safety circuit, consisting of 1 NC for emergency-stop connected in series with 1 NO, which is always closed during operation but opens automatically once the actuator and contact block are separated from each other.

Category: Contact Blocks

Series: Contact Blocks AZ...

Protection class: II (protective insulation)

Degree of protection: IP00

Switching function: momentary action

Travel: 3 / 6 mm

Contact equipment: 2NC + 1NO

Connection type: Faston terminals 2.8x0.8 mm

positive opening: acc. to EN60947-5-1, appendix K

operating temperature: -30°C ... 70°C

accessory type: contact block

electrical life: 1 million operations

storage temperature: -50°C ... 85°C

mechanical life: 1 million switching cycles

contact material: AgNi
